

Overview

The Formal Site Monitoring Tool (FSMT) is conducted by the CCCM Cluster and camp management partners twice a year in all formal IDP camps in Iraq, to **monitor service standards** in the camps and **highlight needs and gaps**. This round of the FSMT was conducted in late March 2021 in all 27 remaining formal camps in Iraq: 25 administrated by the Kurdistan Region of Iraq, AAF in Al-Anbar, and Qayyarah-Jad'ah 5 in Ninewa.

The tool contains core indicators monitored by each Cluster and is answered by the camp manager in each camp, with inputs from service providers when necessary. It also provides a detailed age & gender breakdown for each camp, for planning purposes. This document provides analysis of selected indicators for each sector, plus an **overview of all service providers per camp**. You can [download the full dataset, HERE](#).

Key Highlights of Needs and Gaps

SAFETY

- 6 camps report less than half of public latrines having lighting at night, incl. AAF (Anb.), Qayyarah-Jad'ah 5 (Nin.), Shariya (Duh.)
- 8 camps report that not all public latrines have functional locks, including AAF, Shariya, and the three East Mosul Camps (Nin.)
- Of the 11 camps with communal & public latrines: 4 report all latrines are gender-separated. 7 report less than half being gender-separated: Hasansham U2, U3, Khazer M1, Berseve 1 & 2, Mamilian, Khanke (Duh.)
- No camps reported security incidents in or around the camp in the 30 days prior to data collection
- A total of 57 fire incidents were reported from January to March 2021

CCCM & ACCOUNTABILITY

- 9 camps report not having block/sector leaders and 3 not having camp committees.
- 2 camps report not having a complaint mechanism in place (Berseve 2, Mamilian)

SHELTER/NFI

- All camps except Qayyarah-Jad'ah 5 reported that replacement NFIs are readily available
- 3 camps reported that some shelters are not connected to the electricity network

WASH

- 4 camps (Tazade & Qoratu (Sul.), Shariya, Baharka (Erb.)) reported presence of open defecation.
- 16 camps have private (household) latrines, and 11 communal (shared between specific HH) or public. Private latrines have an av. of 1:4 latrines to persons, and communal latrines 1:10. Camps with public latrines are: Shariya at 1:17, AAF at 1:19, & Jad'ah 5 at 1:13
- Average number of persons per shower is 15 for public, 13 for communal, and 4 for private. AAF has 26 persons per shower facility.
- All camps reported acceptable colour, taste, and smell of drinking water

HEALTH & COVID-19

- 11 camp managers reported the nearest secondary healthcare facility is more than 5km from the camp
- In 2 camps, Qoratu & Tazade (Sul.), there is no primary healthcare provider in the camp
- 20 camp managers reported not having procedures for COVID-19 quarantine, and 6 not having referral systems for suspected cases.

PROTECTION

- 5 camps - AAF (Fallujah district), Debaga 1 (Makhmour), Khazer M1, Hasansham U2 & Hasansham U3 (Al-Hamdaniyah) - have movement restrictions imposed
- 15 camps report having inadequate facilities or services for individuals with physical and mental disabilities.
