

CCCM Cluster Somalia Dashboard

as of December 2023

General Updates

Site Verification: #2 site verification assessments were conducted in 2 districts. The verification featured 9 sites in Ceel Waaq with 3,585 HH (21,510 individuals) and 11 sites in Garbahaarey where 3,207 HH (18,912 individuals) were verified by Local Authorities, CCCM partners and stakeholders.

Coordination: Partners conducted 29 coordination meetings at site level and with Local Authorities representatives from Xudur, Galkayo, Bossaso, Dayniile and Khadha. In Xudur, the local authority and all the humanitarian actors present in the district met to strengthen their collaboration and coordination, with the Mayor of Xudur district and his district Councillors urging the humanitarian partners to strengthen the collaboration and coordination with the local Authority in their service provision to the IDPs community together with and the vulnerable in the host community. In Dayniile, area-based site-level coordination meetings, involving humanitarian partners, local authorities, and the CMCs, facilitated information sharing between the stakeholders, mobilized partners within the catchment area, and linked them to the evidence-based needs and community and local authority feedback. The CCCM coordination has successfully mobilized service providers to deliver multisectoral assistance to vulnerable populations, including WASH services where 38 toilets and 10 water points were constructed each equipped with 10 taps, in catchments 18 and 19.

Service Monitoring: Site monitoring activities occurred in 1,512 IDP sites covering 36 districts with 13 agencies administering this activity. Out of the 1,512 IDP sites managed by CCCM partners monitored in December, 535 have received new arrivals within the last month (35%). 83% of sites receiving new arrivals received community awareness activities on the availability of services. Overall, 63% of sites had water access for IDPs. 49% of sites have primary education facilities while 35% of sites can access primary education facilities within a 20-minute walk. 52% of sites have access to health facilities within a walking distance while facilities for nutrition stood at 70% of sites. 92% of surveyed sites consist of emergency shelter types with 5% of sites having transitional shelters and 3% of sites having permanent shelters. 8% of IDP households have received cash or food assistance within the last 6 months.

For more details on Site Monitoring, please see the dashboard: <https://bit.ly/3zZQJxE>

Communication with Communities: CCCM partners conducted orientation sessions on available humanitarian services including conducting services awareness sessions during MUAC screening, to newly displaced IDPs orientation sessions in Baidoa, Dayniile, Khada and Baardheere. CCCM partners also carried out, door-to-door sessions and public awareness-raising campaigns in IDP sites coupled with the distribution of posters, and erecting billboards in several sites with the intention to provide reliable information on available services: A total of 91 activities with 50,506 participants attended the sessions.

Complaint and Feedback Mechanism (CFM): December featured a total of 3,588 tickets were received. The category with the highest number of feedback and requests was Food Security Cluster with (1,731 tickets) followed by SNFI, totaling (1,041 tickets) and WASH with (578 tickets), in the second and third positions, respectively. Of the responses received from agencies, about 35.58% were reported as resolved, 11.35% could not be resolved due to a lack of funds/resources, while 53.07% were closed as there was no-response from the responsible agency.

More information and analysis can be found on the live dashboard:

Site improvement activities/Cash for Work: CCCM partners conducted site decongestion activities to improve access and mitigate the risk of fire in congested sites, waste disposal management and drainage systems. Partners carried out a total of 45 site improvement activities including regular site cleanup campaigns to collect garbage/wastes using DRR tools in incentivized Cash for Work approach by engaging site maintenance committees and community volunteers benefiting 810 men and 710 women. The average monthly stipend provided to these beneficiaries were \$72.

New Arrivals: CCCM partners continue recording large numbers of displaced populations arriving at IDP sites in Kismaayo, Kahda, Baidoa, Dayniile, Belet Weyne, and Afgooye along with other districts due to the impact of flooding and conflict. In December, at least 166,240 new arrivals were displaced mainly due to the catastrophic flooding experienced in the past month. Majority were received in Khada, Baidoa, Dayniile, Kismaayo and Belet Weyne districts. At least 112,009 were displaced due to flooding currently being witnessed due to the El Nino phenomenon. (NAT wk. 48-52. CCCM Partners continued to closely work with Nutrition Partners to conduct MUAC screening across sites, with SAM and MAM cases referred to Nutrition partners for assistance.

For more details on new arrivals to IDP sites please see the New Arrivals Tool (NAT) Dashboard: <https://bit.ly/3HFYA7F>

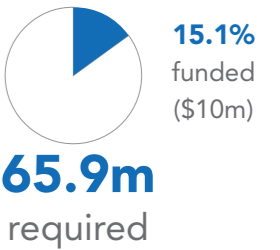

Operational presence of cluster partners

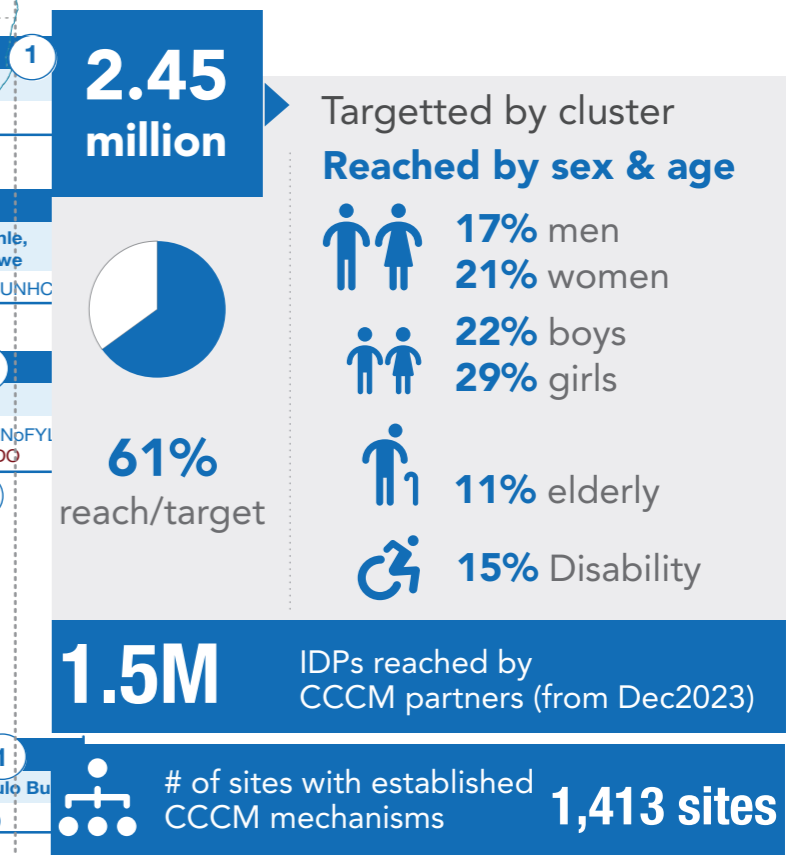

Overall Objective

To improve the living conditions and protection of IDPs in sites and settlements and ensure equitable access to services and assistance of all persons in need, with a clear focus on moving toward attaining durable solutions with full participation of the displaced and host communities.
