

## HUMANITARIAN PROGRAMME CYCLE

These sections are relevant to CCCM Clusters who are engaged in Humanitarian Program Cycle processes.

They should be read alongside:

- [Toolkit Section 4. Strategic Planning](#) – for guidance on developing a CCCM Response Strategy, engagement of local and national actors in strategic planning, and running consultation processes
- [Toolkit Section 3. Needs Assessment & Analysis](#)
- [Toolkit Section 6. Monitoring & Reporting](#)

You can find in this section information on:

- What the Humanitarian Program Cycle (HPC) is
- Flash appeals in new emergencies
- Needs assessment and analysis: developing a Humanitarian Needs Overview (HNO)
- Strategic response planning: developing and costing a Humanitarian Response Plan (HRP)
- Monitoring funding status (using FTS)
- Pooled Funds

Don't forget that a CCCM Cluster needs to have a CCCM Cluster Response Strategy in place, too. This is a separate document, although it must be aligned with the HNO and HRP. Planning to develop the Response Strategy to the same timeframe as the HRP is often the most efficient use of time. You can find guidance and an example timeline in [Toolkit Section 4.1 Strategic Planning](#).
