

Site Management Update 10

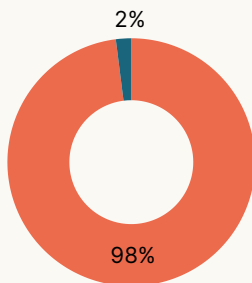

GAZA RESPONSE

30 January 2025

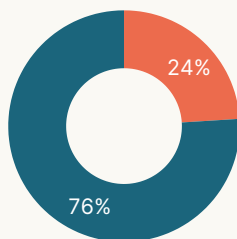

GENERAL INFORMATION

- Assessment covers **55,725 individuals** and **11,907 households** living in 46 sites, including 45 makeshift sites, and 1 non-UNRWA collective center in the governorates of Khan Younis (70%), Deir al Balah (15%), and Rafah (15%).
- In the majority of assessed sites (76%) KIs reported people are leaving the site. While in 24% of the sites, KIs reported no population changes since the ceasefire.
- On average, KIs reported 1,200 individuals leaving each site. An increase from the average reported yesterday and previous days.
- In addition, 3 sites were reportedly inactive as the population moved to different areas.

Sites types covered by site to site assessment

- Makeshift sites
- Collective centers non-UNRWA

Reported changes in population

- No population changes reported
- Sites with population leaving

Average of individuals leaving per site: 1,200 people

Displacement type: Makeshift sites, Collective Centers

Governorates: Khan Younis, Deir Al-Balah, Rafah

Total Individual: 55,725

Total Households: 11,907

METHODOLOGY:

SMC partners (NRC, UNRWA, ACTED, PARC/DRC, PHC) collected information using a structured questionnaire hosted on Zite Manager. Enumerators contacted focal points (KIs) by phone calls, recording the information directly on the questionnaire online.

Calls were conducted daily during the ceasefire, the information on this report was collected between **2pm on January 29th and 2pm on January 30th**. Cumulative findings of the site to site assessment can be consulted on the [interactive dashboard](#).

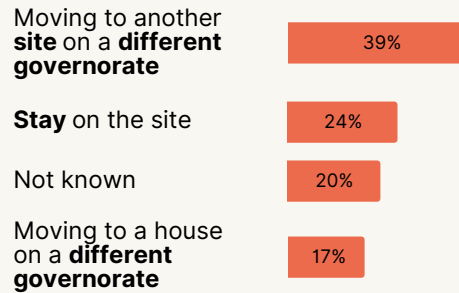

Site Management - Update 10

30 January 2025

MOVEMENT INTENTIONS

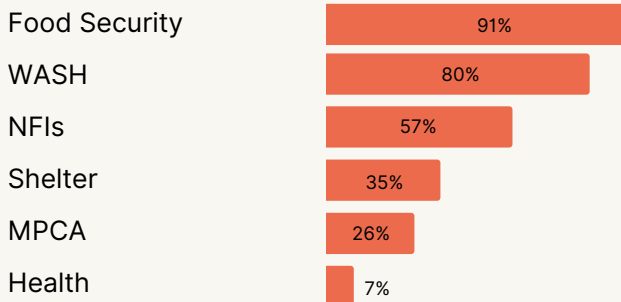

- In more than half of the sites (46%), KIs reported people were planning to move to a different governorate, to another site (39%) or their own house or relatives' house (17%).
- In almost one fourth of the sites assessed (24%), KIs reported the population is planning to stay on the site.
- On sites where people reported intentions to leave, KIs reported either few (reported by 20% of KIs) or half of the people will move out of the site (reported by 17%).
- The most reported governorates where people will be moving to were North Gaza (reported by KIs in 39% of the sites), Gaza (30%), followed by Rafah (28%), and Khan Younis (26%).*

Movement intentions of people in sites, as reported by KIs (percentages of sites):

KEY POPULATION NEEDS

Most reported **sectors with need of humanitarian assistance** are:*

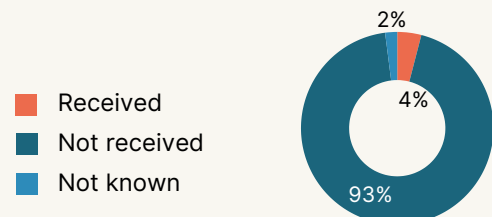

- In the Food Security sector, the most needed assistance was reportedly in kind food distributions (83%) and food vouchers or cash transfers (72%).*
- In WASH sector the most needed assistance was reportedly drinking water (76%), water for domestic use (50%), and hygiene kits (28%).*
- The most needed NFIs were: blankets and mats (52%), clothing (30%), and emergency shelter items (24%) as reported by KIs.*
- Among shelter needs reported, need for shelters (35%) and shelter repairs and upgrades (20%) were the most reported.*

HUMANITARIAN ASSISTANCE RECEIVED

- In the majority of the assessed sites (93%), KIs reported no humanitarian assistance had been received in the past 7 days.
- Only in 2 sites some assistance was reportedly provided, the humanitarian assistance was reportedly food assistance.*

Sites that **received humanitarian assistance** in the past 7 days (as reported by KIs)

*Multiple choice question. Percentages can be higher than 100 when added.

The SMC will continue to monitor any newly identified sites and track updates on existing sites. Relevant data will be shared promptly as it becomes available from partners.

For further information or to share updates, please do not hesitate to contact the SMC Coordinator, [Richard Okello](#) and [Madeline Green-Armytage](#), or the Information Management Officers, [Alisa Ananbeh](#) and [Uxue Alfonso](#).
